RE: Application # 09/888,554

INVENTION TITLE

RE: USPTO patent application number: "09/888/554", Title: "Retail Customer and Product Purchase Divider With Interactive Retail Transaction Functions"

I am petitioning the USPTO to withdraw the action for abandonment for this patent application (number 09/888,554) so I may finish the patent process. I never received an "Office Action Letter" or an "Abandonment For Failure To Respond" letter from the USPTO. I have been told the abandonment letter was dated May 5, 2004. I have written and called many times and no one has been able to find these letters. I recently noticed that the patent application has been published on the PTO site. This may be mainly because I physically re-located and lost communications. I have enclosed the re-instatement fee.

When I recently contacted the USPTO by phone the office actions could not be located by several departments. It appears that the final "Office Action Application Abandonment For Failure to Respond" letter was not generated and sent to me. I have searched and others at the PTO have searched. The notice letters and my correspondence with the PTO do not exist in the PAIRS data system. A withdrawal of the abandonment for failure to respond will allow me to complete the application of this patent. I am requesting the withdrawal because I could not respond to the office action notices having never received them.

It has come to my attention that the USPTO never received a response from me to an "Office Action Letter" within 6 months that was mailed to me regarding the above patent application. I was contacted and submitted a claims revision dated September 18, 2001. I recently called and spoke with a PTO assistant that stated an "Office Action" letter was sent on October 3, 2003 to 5208 - 122pl SE, Everett, WA 98036. On May 5, 2004 another letter was sent to 5208 - 122pl SE, Everett, WA 98036 for "Abandonment For Failure To Respond Office Action". I never received these notices.

I was working with Michael Cuff, who was the examiner for this patent application. It was not my intention to delay the patent application. I was not at that address (5208 - 122pl SE, Everett, WA 98036) after May of 2003 and I unintentionally did not submit a "Change of Correspondence Address" form. I unintentionally did not respond to the office actions because I did not receive them at my address. The delay from then to now was unintentional and can be explained. If more clarification is needed please let me know your requirements.

Please withdraw the holding of abandonment pending application for of this patent application. Also please send me all the necessary information, documents (including copies of the office action letters) and contacts in the USPTO necessary to continue and finish the patent application. If you have any questions please contact me as soon as possible.

Sincerely,  Steven M Senn
